PROFILE

Data Analyst with nearly 2 years of experience **delivering data-driven business intelligence solutions, automating complex workflows, and implementing AI-powered analytics**. Expertise in **SQL, Power BI, Advanced Excel, and Python** to transform large, complex datasets into **actionable insights** that **improve operational efficiency, optimize performance, and support strategic decision-making** in high-growth environments.

SKILLS

SQL & Database Management

MS SQL, MySQL, Azure data studio, PostgreSQL

Machine Learning & AI

Predictive Analytics, Trend Analysis, Model Development, Streamlit

API Integration & Automation

Postman, FastAPI, Python Requests

Data Analysis & Visualization

Power BI, Tableau, Excel, power Query, Pandas, NumPy, Matplotlib

Computer Vision & Image Processing

Ultralytics, YOLO, OpenCV, TensorFlow

Tools & Platforms

Visual Studio Code (VS Code), Jupyter Notebook, PySpark, Git, Databricks, JIRA

PROFESSIONAL EXPERIENCE

JUNIOR DATA ANALYST

NEUBERG DIAGNOSTICS

12/2024 – Present

- **Expanded regional, center-wise, and city-wise performance dashboards** using a unified semantic model with automated subscription alerts for business unit heads.
- **Automated sales performance, attendance, revenue analysis, P&L summaries, and productivity reports** using SQL, improving overall operational efficiency by 10%.
- **Executed ETL workflows** between production and backup servers, enhancing system efficiency and data reliability.
- **Built an end-to-end NPS feedback and action management portal** using Python and MS SQL, incorporating RCA, CAPA tracking, and SLA monitoring.
- **Developed BI dashboards for NPS KPIs** in Zoho Analytics, enabling Customer Experience teams to track detractors and improve satisfaction.
- **Created AI-powered CCTV analytics solutions** using Python, YOLO, OpenCV, and Machine Learning, with real-time integration into Tableau for operational monitoring improving overall efficiency by 25%..
- Designed an integrated Digital Marketing and Call Centre dashboard in Power BI to monitor campaign performance and call operations, reducing abandoned calls to **below 15%** and driving an **8% month-over-month** improvement in digital revenue.

DATA ANALYST-INTERN

NEUBERG DIAGNOSTICS

05/2024 – 11/2024

- Rolled out **Power BI dashboards** across multiple departments, automating report distribution and reducing delivery timelines by **35%**.
- Optimized **data models**, improving dashboard **refresh performance by 50%**.
- Enhanced **advanced SQL queries** to analyze large datasets, uncovering trends and actionable insights for operational and strategic decision-making.
- Computerized **weekly MIS reporting** using Power BI, eliminating approximately **10 hours of manual work per week**.
- **Designed, maintained, and enhanced** daily and weekly TAT dashboards in **Power BI**, ensuring high data accuracy and reliable refresh cycles.
- Performed **backend data validation and feature testing** during system updates, collaborating with developers to ensure smooth rollouts of the **Neu5R app**.
- Authored **documentation and SOPs** for reporting workflows, improving standardization and operational efficiency.

EDUCATION

B.E.COMPUTER SCIENCE AND ENGINEERING

RAJALAKSHMI INSTITUE OF TECHNOLOGY

09/2020 – 05/2024

CERTIFICATES

- Data Science Methodology - IBM
- SQL and Relational Databases - IBM
- Cloud computing essentials - NAAN MUDALVAN
- Excel Skills Job Simulation - JP MORGAN
- Python for datascience -IBM
- Certified Risk Management FMEA ISO 31000 Expert-UDEMY
